- Then stop to get to this page....

STREAMING:
INACTIVE

v2.09 revB3
RST ALL STR PRG

Reset Options   Program All   Start Streaming   Program Console
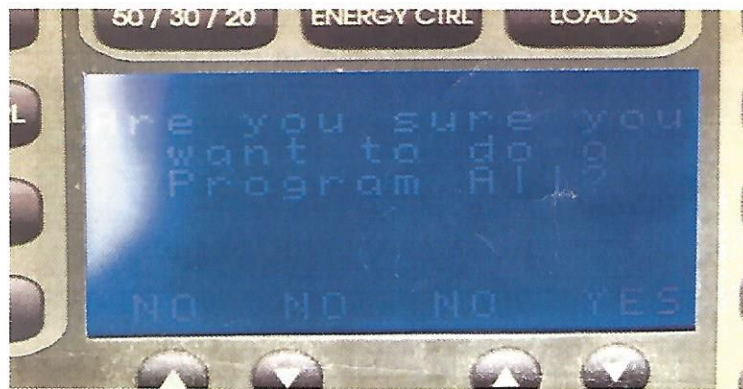

3. From the "Streaming Inactive" page press "**ALL**" button that will take you to the next screen

4. When Prompted "Are you sure you want to do a program all?" press "YES"

5. Once programming process is done it will take you back to the "Streaming inactive "page. Press "**STR**", this will restart your stream and get your system back online.

*After restarting, make sure all equipment desired on, is turned on. The system may turn off components like refrigeration, etc. that may need to be reset.
